MINNEAPOLIS, MN 55422

RE: echo  
Category Code: P1  
NSF Registration No. 140176

Dear Reid Rabon:

NSF has processed the application for Registration of **echo** to the *NSF Registration Guidelines for Proprietary Substances and Nonfood Compounds (2007)*, which are available at [www.nsfwhitebook.org](http://www.nsfwhitebook.org). The NSF Nonfood Compounds Registration Program is a continuation of the USDA product approval and listing program, which is based on meeting regulatory requirements for appropriate use, ingredient and labeling review.

**This device is acceptable for use as a charged water generating device to clean floors in and around food processing areas where its use is not intended for direct food contact (P1). Use of this product in food processing or handling facilities requires that all food products and packaging materials be removed or protected prior to product use. The device must only be used in a manner consistent with the manufacturer's labeling and use instructions.**

This device is NSF Registered when the NSF Registration Number, Category Code, and Registration Mark appear on the NSF-approved product label, and the registered product name is included in the current NSF White Book Listing of Nonfood Compounds at the NSF website ([www.nsfwhitebook.org](http://www.nsfwhitebook.org)). The NSF Registration Mark can be downloaded by clicking the "Download Registration Mark" link on the NSF website ([www.nsfwhitebook.org](http://www.nsfwhitebook.org)).

NSF Listing and Registration of this device by NSF International is in no way to be construed as an endorsement of the device, appropriate selection for use, or of any performance or efficacy claims made by the manufacturer.

Registration status may be verified at any time via the NSF website, at [www.nsfwhitebook.org](http://www.nsfwhitebook.org). Changes in the device or label, without the prior written consent of NSF, will void registration, and will supersede the on-line listing.

Sincerely,

Jennifer De France
